

Soundcodes: Energetic Matrix Upgrade for a New World Activating our Innate Wisdom

An ancient technology is newly awakened and available for humanity's use.

This ancient system stems from the science of sound, blending the knowledge of why certain energy centers are so significant to our overall vitality together with the quantum wisdom that our bodies are made of frequency.

Soundcodes are a series of potent sounds blended in exact sequences forming an energetic matrix that can reopen the illuminated pathways within your bio-electrical being. This process supports innate wisdom, helping us to return to our natural blueprint of health and vitality.

These inspired Soundcodes create a language that lends a strong intelligence to increasing the body's ability to self-heal. The primary energy systems at the areas of the atlas, xiphoid, sacrum, and coccyx are of pivotal importance within this work. These targeted areas already contain the information needed, but cannot readily access it. The codes unlock and activate this dormant information. It is as though we finally found the password, and now we can use the software that is already installed.

An overwhelming majority of people are born with a partially occluded foramen magnum and substantial torque in the upper cervical region, which create undue pressure on the spinal cord and lower brain stem. The condition causes tremendous stress to the body and contributes to the development of several pain syndromes, such as cervical, lumbar, and joint pain, headaches, and digestive disorders. ADD and ADHD can also be directly related to this profound asymmetry in the upper cervical region. Relieving this blockage increases blood supply to the brain and opens the communication between the brain and the body.

As physics has proven, everything is a vibration of energy and sound. The most unique characteristic of the Soundcodes is their ability to restore full functionality of these primary joints through sound that has been produced by human voice, not a machine or instrument. Essentially, the practitioner names a particular energetic state and the body understands this and follows. The new condition of the body is not only physical, but also multi-dimensional.
